Notes - e.g. Rationale for lend, what benefit will it provide, new contracts, any further info

This is a civils and cabling contractor that primarily works with commercial clients. As can be seen by the accounts, the business is experiencing rapid growth. They have recently won a large contract to build a fibre network around Bournemouth, Portsmouth and Worthing,

Funding is required to facilitate this contract. They'll require more vehicles, back room staff and cash flow before they start receiving payment from the contract. Payment from the contract will be received every 2 weeks, the business just needs the initial capital to get the ball rolling.

The business has no website as they win contracts through contacts in the industry so they have little need for marketing.

Dean is currently renting his residential property and has clean credit.

I have attached their last 2 sets of accounts and 6 months business bank statements.
