The business develops mobile apps. And require funding for working capital.

See website: <http://heveloon.co.uk>

The average fee for an app is £200,000, there is also an ongoing fee to look after it.

They are in a way tied in for the maintenance due to them developing the app.

They have a 2 years contract that is ongoing and is worth 1.3m. They can't give me site of the contract as they are under NDA.
