Deal Overview
<p>L&BPS Ltd, incorporated in 2021, specialises in life and building protection services for businesses and domestic customers throughout the UK. As experts in the field, L&BPS is committed to providing comprehensive solutions to safeguard both people and properties. With a focus on cutting-edge technologies and best practices, the company offers a wide range of services, including security systems, fire protection, and risk assessment. L&BPS's team of seasoned professionals ensures that every project is executed with precision and care, making it a trusted partner for clients seeking reliable and effective protection solutions.</p> <p>Since incorporation in 2021, the business has been trading well and growing each year. In their first 12 months trading, the business achieved £150k revenue and had a net worth of £26k. Up until March 2023, the business completed turnover of £211k with profit of £39k. The business has a PNW of £40k.</p> <p>L&BPS are now hoping to acquire funding to assist with business growth. These funds are to include new product lines as L&BPS move into kitchen suppression. This will create another revenue stream and increase customer numbers. The kitchen suppression market in UK is estimated to be worth c.£350m a year and there are only 3 suppliers in this space, an amazing opportunity for L&BPS to capitalise on and become a major supplier/installer. As well as this new product line, the business will also be increasing staff numbers in both sales and operative roles, as well as increasing their marketing and advertising budget/spend and refinancing some outstanding loans.</p>

These funds will allow L&BPS to increase revenue, profit, customer numbers and brand awareness almost instantly.

Mark Lee Childs, sole director/shareholder, is happy to provide his personal guarantee to support this lend.
