Proposed Finance

Amount and Term	10k over 12 months
Date Required	July 2024
Purpose of loan	<p>The company is facing challenges due to limited credit with suppliers, coupled with rapid growth which is creating operational issues.</p> <p>The loan is needed to support the company's growth and manage cash flow more effectively. Currently, the company bills clients bi-weekly but requires upfront costs for projects, sometimes as high as £40,000. Without additional funding, they risk reaching a point where they cannot continue to grow due to financial constraints. The loan would provide the necessary financial opening to cover these upfront costs and facilitate further expansion.</p>
